

## **Request for revision of deliverable submission for the project "Music360 (101094872)".**

On date 28/06/2024, the officer "Melpomeni VYZIKA" has requested the revision of the submission for the deliverable with title "Management handbook" and number "1" for the project "Music360 (101094872)".

### *Request for revision comment:*

The deliverable has a similarity rate of 64% with other deliverables published from different projects, without acknowledging them. This is not acceptable and raises research ethics concerns and should be rectified. Please ensure that you also delete any reference to other projects such as "The budget can be viewed by the project partners on the Participant Portal and in the Grant Agreement, which is available on RURALIZATION Internal Communication Platform > Contracts."

-Correct and improve incomplete sections.

-Add all up to date project information, for example details of the SAB – the Stakeholder Advisory Board

- Add the project timeline (Gantt chart) and an explanation of how the different work packages feed into each other and enable efficient collaboration and flow of dependent information (i.e updated versions of Figure 3.1a and Table 3.1a from the Description of Action document)
