

Course announcement

BASIC MICROSCOPY COURSE

This course teaches you the application of a range of imaging possibilities within the Centre for Microscopy at the Amsterdam UMC and the NKI-AvL.

The course includes **lectures, discussions** and hands-on **demonstrations**. The **individual research projects** of the attending participants will be **discussed** in relation to the demonstrated techniques, allowing **exchange of ideas** with fellow participants and **microscopy experts and operators**.

Topics covered include:

- Basic principles of microscopy
- Specimen preparation, staining methods and assay systems
- Quantitative analysis of microscopic images
- Confocal laser scanning microscopy
- Electron microscopy techniques
- Imaging flow cytometry
- Wide field microscopy
- Live cell imaging

16 – 20 March, 2026

Free of charge

1.5 ECTS
