Subject: Notice of work by Coördinatie Centrum Energie B.V. (CCE)

Dear Reader,

We would like to inform you of the following:

- **Electricity test on Saturday 13 June, between 08:00 – 09:00.**

The test protocol for 13 June consists of a series of tests, the so-called “islanding tests” of the preferred network (emergency power). This is an internal test protocol carried out by CCE. If the test proceeds as planned, you should not notice any disruption. If complications arise during testing, it may result in a brief outage (40 seconds) of the preferred network.

We are doing everything possible to minimize the risk of disruption to primary operations.

Coordination in the Vrije Universiteit buildings, including the ACTA building, O|2, the Medical Faculty, Transitorium, and the VU Research Building, is handled by Mr. J. Snoek, Team Lead, Incident Response and Emergency Management, Facility Campus Organization (VU), reachable at phone number 85968 or by e-mail jan.snoek@vu.nl. For the Amsterdam UMC-location VUmc, excluding the Medical Faculty building, coordination is handled by Mr. F. Edens, Electrical Installation Responsible Officer, Real Estate Directorate, reachable at phone number 06-51582763 or by e-mail f.edens@amsterdamumc.nl.

If you have any questions, please contact one of the individuals listed above.

CAMPUS FACILITIES ORGANIZATION

Through various information channels, we try to keep everyone informed about these activities.
We kindly ask that you also inform your internal organization accordingly.

We hope we have provided you with sufficient information at this time.

Sincerely,

W.A. (Willem) Verduyn, Eng.
Manager Project Delivery Management - Property Management
